

## Spirit UV lighting

**Latest generation 365nm  
ultraviolet lighting and  
white light**

### Technical features:

- ❖ 2 UV 365nm LEDs / 1 White Light Led
- ❖ UV intensity at 380mm: 3500  $\mu\text{W} / \text{cm}^2$  (White UV light <5 lux)
- ❖ Coverage diameter at 380mm: > 1000  $\mu\text{W} / \text{cm}^2$  on a beam diameter of 150mm
- ❖ Complies with ASTM E3022, ISO 3059, RRES 90061, NADCAP, AITM6-1001 standards
- ❖ Dimensions: 82 x 112 x 200mm
- ❖ Weight: 650g
- ❖ Operating voltage 12V DC
- ❖ Available in mains or battery power version (1000 testing cycles autonomy)

*Usable in explosive  
atmosphere*

*Ultra light and handy*

*Double lighting: UV and  
white light*

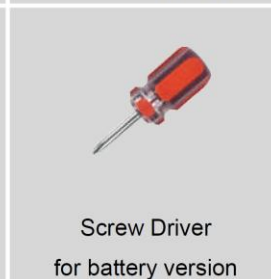

## Spirit UV lighting

*Battery version*

*Mains version*

### Description of the Kit:

### Possible assemblies:

*Suspended on support*

*Arm mounted*
